There was a Perpetual Care report from Peggy Munro. It was a most informative document that is attached to the Minutes. No action was taken.

Re: Front Porch Forum Complaint about the Elm Street Cemetery.

Patrick met with the man there who expressed concerns about upkeep of the Elm Street Cemetery. It turned out he had been an intern from Montpelier High School and worked with Patrick years ago. It turned out that his concern was actually about maintenance funding and why the City was not maintaining it. Patrick explained that it was something that GMC oversees and that during slow time some straightening and some repairs would be done. Patrick said it was a pleasant exchange.

Director's Report:

Burials as of July 1st:

1 natural burial, 2 cremations, 1 vaulted

lot sales: 1 sale

4 in ground marker installed

Education. What do we have what do we need/want

Patrick will be looking at and listing future equipment needs and will review the tools and make a purchase plan.

He explained how GMC has been transitioning from gas powered to battery powered tools. He showed the Commissioners many hand tools that last longer than the gas powered and reduced repairs and saves money in the long run. He gave a tour of the three rooms in the GMC office.

Other Business

Pelin Kohn and Sal Alfonso met with Patrick who took them on a tour of GMC. They had no idea of how large GMC was. Pelin had sent him a communique with ideas that might be of benefit to GMC. He. Is hoping she can come to our September meeting.

Next meeting is at noon on August 10, 2026

Meeting was adjourned at 1:23 PM

Respectfully Submitted,

Linda Hogan

Secretary
